

## Zimska sezona in stanje prog v Krajinskem parku Logarska dolina

### Smučarski tek

Danes, v nedeljo, 11. januarja 2026, so v Krajinskem parku Logarska dolina urejene tekaške proge po celotni dolini, skupno 15 km prog, namenjenih vsem ljubiteljem zimskih aktivnosti v neokrnjeni naravi.

Tekaške proge so pripravljene od vstopa v Krajinski park Logarska dolina pa vse do Logarskega kota. Zaradi raznolikosti terena in razmer je na posameznih odsekih urejena proga zgolj za drsno (skate) tehniko, kar omogoča kakovostno izkušnjo tako rekreativnim kot tudi zahtevnejšim tekačem.

Stanje prog sproti posodabljam in označujem na spletni strani, kjer so dnevno aktualne informacije o urejenosti posameznih odsekov. Obiskovalcem priporočamo, da si pred prihodom ogledajo tudi snežne razmere preko spletnih kamer ter aktualno pripravo prog:

### Vabljeni tudi družine

Zimska ponudba v dolini ni namenjena le tekačem. V osrednjem delu doline, na območju nekdanjega kampa in na travniku pri Hotelu Plesnik, sta urejena sankališča, primerna za družine z otroki in vse, ki si želijo sproščene zimske zabave.

### Prodaja kart in najem opreme

Pomembna letošnja novost je spletna prodaja kart za tek na smučeh, ki omogoča enostaven in hiter nakup še pred prihodom v dolino.

- ✓ Gotovinsko plačilo je še vedno možno v Kmečki hiši Ojstrica,
- ✓ tam je na voljo tudi najem opreme za tek na smučeh, sank, ter krpelj,
- ✓ kontrola kart poteka neposredno na terenu.

### Spletna prodaja kart:

Zimska sezona v Logarski dolini ponuja urejene proge in prelepo naravno kuliso. Vabljeni, da zimo doživite aktivno, odgovorno in v sozvočju z naravo v Logarski dolini.

### Sprehajalci na cesto

Tekaške proge so namenjene izključno smučarskim tekačem. Vse sprehajalce vljudno prosimo, da se gibljejo po cesti in ne hodijo po tekaških progah, saj s tem poškodujejo urejeno smučino in onemogočajo kakovostno uporabo prog.

Obiskovalce s psi prijazno naprošamo, da pospravijo pasje iztrebke za svojimi ljubljenci. S tem izkazuje spoštovanje do narave in pomagata lokalnim kmetom, ki travnike uporabljajo za pašo goveda.

## **Pravila za tek na smučeh**

Smučarske tekače prosimo, da dosledno upoštevajo pravila teka na smučeh. Le z odgovornim in obzirnim ravnanjem lahko zagotovimo, da bodo proge varne in prijetne za vse ter da bomo v zimski sezoni skupaj uživali v aktivnem gibanju v naravi.

## **Winter season and trail conditions in Logarska dolina Landscape park**

### **Cross-country skiing**

Today, Sunday, 11 January 2026, cross-country ski trails are groomed throughout the entire valley in Logarska dolina Landscape park, offering a total of 15 km of trails for all winter sports enthusiasts who enjoy pristine natural surroundings.

The trails are prepared from the entrance to Logarska dolina Landscape park all the way to Logarski kot. Due to varied terrain and conditions, some sections are groomed exclusively for skating (skate) technique, ensuring a high-quality experience for both recreational and more demanding skiers.

Trail conditions are regularly updated on our website, where you can find daily, up-to-date information on the groomed sections. Visitors are advised to check current snow conditions via live webcams and trail preparation before arrival:

### **Families also welcome**

The winter offer in the valley is not intended only for skiers. In the central part of the valley, in the area of the former campsite and next to the Hotel Plesnik, a sledding area is prepared, suitable for families with children and for anyone looking for relaxed winter fun.

### **Ticket sales and equipment rental**

An important novelty this winter season is online ticket sales for cross-country skiing, allowing for a quick and easy purchase before arriving in the valley.

- ✓ Cash payment is still possible at Kmečka hiša Ojstrica,
- ✓ equipment rental for cross-country skiing, sleds, and snowshoes is also available there,
- ✓ ticket checks are carried out directly on the trails.

#### Online ticket sales:

The winter season in Logarska dolina offers a unique combination of well-maintained infrastructure, stunning natural scenery, and the tranquility of an Alpine valley. You are warmly invited to experience winter actively, responsibly, and in harmony with nature in Logarska dolina.

#### Walkers on the road

Cross-country ski trails are intended exclusively for cross-country skiers. We kindly ask all walkers to use the road and not to walk on the ski tracks, as this damages the groomed trails and affects their quality.

Visitors with dogs are politely requested to clean up after their pets. By doing so, you show respect for nature and support local farmers who use these meadows as pastures for grazing cattle.

#### Rules for cross-country skiing

Cross-country skiers are kindly asked to strictly follow the rules of cross-country skiing. Only with responsible and considerate behavior can the trails remain safe and enjoyable for everyone throughout the winter season.
